## Other

From April 1997 until June 1997 I was invited to participate in a design study for new school and residential buildings by the Dutch Association for Architects in Amsterdam (BNA)

In 2001 my graduation project 'Of Other Spaces' was nominated by the Rotterdam Academy of Architecture and Urban Design as an entry for the competition Archiprix, later on my plan was also nominated for the Archiprix International.

In 2001 invited participant in the Master Class Rijksbouwmeester, with this design obtained a project from the Dutch Government; Youth Hostel in Heemskerk.

In 2003 invited participant in the Master Class 'Steel' at The Berlage Institute Rotterdam. This Master Class focused on innovative design with steel structures. My proposal consisted of a serie off leisure-homes floating in the dutch river landschape.

From October 2003 until May 2004 I participated as a teacher/mentor in a graduation project at the Rotterdam Academy of Architecture and Urban Design.

From May 2008 member of JOH, Young academics that work in the field of Real Estate.

## Competition Entries

- Competition Design Award TU Delft, 'Horizon is the Limit' Winning entry for an international design competition 1996
- Competition 'Het aanzien van Nederland', 'Post City' 1997
- Archiprix 2001
- Archiprix Internationaal 2001
- Manufacturing of Building Materials from Rejected Solid Waste; Entry for the Business and Development Challenge, a competition about innovative business ideas in Third World Countries. We got selected out of 700 plans and have proceeded into the final round! 2007
- All other competition entries were from within the office
